

Expert to speak at the Miami VA

“ACEs and Beyond, decreasing suicide risk, increasing health and wellbeing.”

David L. Corwin, MD,
Professor of Pediatrics and Psychiatrist
University of Utah School of Medicine
Academy on Violence and Abuse
<http://www.avahealth.org>

The Target Audience

Psychiatrists, Physicians, Psychologists, Social Workers,
Nurses, Educators.

Monday, September 24th
Miami VA Auditorium, with V-tel to CBOCs
11:30 a.m. - 1:30 p.m.
TMS registration for CEU/CME

Purpose: To bring evidenced based research on
adverse childhood experiences (ACE) to providers.

GOAL: ACE is a reliable predictor of negative health outcomes. When
people understand and take steps to moderate ACE effects,
suicide risk can be lowered and chronic health conditions
can be improved.

By the end of this presentation, Learner will

1. Understand ACE impact on adult health status and well being.
2. Recognize increased risk for suicide related to ACEs in Veteran population.
3. Appreciate increase in chronic health conditions related to ACE.
4. Explore how others have effectively implemented changes to support health and wellness.
5. Prioritize ways to promote resilience.
